

Amendment to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (original): A package for a drug-coated stent comprising

A coiled dispenser for receiving a stent delivery system,

a tray having a base and a lid, the base having at least one recess adapted to retain an oxygen or moisture scavenger pack within the tray and in communication with the internal environment of the tray and having channels for receiving the coiled dispenser; adapted to receive a coiled stent delivery system and a pouch adapted to receive the tray and coiled dispenser stent delivery system, the tray containing at least one recess adapted to retain an oxygen or moisture scavenger pack.

Claim 2 (canceled)

Claim 3 (canceled):

Claim 4 (original): A package as claimed in claim 1 comprising a pair of recesses adapted to retain a pair of scavenger packs within the tray and in communication with the internal environment of the pouch.

Claim 5 (original): A package as claimed in claim 1 comprising a pair of recesses adapted to retain oxygen and/or moisture scavenger packs, the lid comprising two apertures which overlie the recesses in the tray base when the lid and tray base are fitted together.

Claim 6 (original): A package as claimed in claim 1 wherein the lid and tray are secured with a snap fit.

Claim 7 (original): A package as claimed in claim 6, wherein the lid is provided with a plurality of lugs which extend from the face of the lid which would overlie the tray base

when the package is assembled, the tray base being provided with a plurality of cavities into which the lugs of the lid fit when the package is assembled.

Claim 8 (original): A package as claimed in claim 1 wherein the pouch is made of a plastics covered foil.

Claim 9 (withdrawn): A method of packaging a drug-coated or treated stent and stent delivery system comprising :-

- (a) placing a coiled stent delivery system onto a tray base adapted to receive it,
- (b) placing a moisture and an oxygen scavenger pack within a recess formed in the tray base,
- (c) placing a lid over the tray base, the lid having apertures which overly the recesses in the tray base when the lid and tray are assembled together,
- (d) placing the assembled tray, lid and delivery system of step (c) into a plastics covered foil pouch,
- (e) flushing the pouch with an inert gas,
- (f) applying a vacuum to the pouch.

Claim 10 (New): A package as claimed in claim 1 and further comprising a scavenger package in the recess.
